The screenshot displays the IBM Watson IoT Platform interface. At the top, the navigation bar includes 'Browse', 'Action', 'Device Types', and 'Interfaces'. A sidebar on the left contains icons for various platform features. The main content area shows a table of devices with columns for Device ID, Status, Device Type, Class ID, and Date Added. One device is listed with ID '12', status 'Connected', and type 'Device'. Below the table, the 'Recent Events' tab is selected, showing a stream of data events from the device. The events table has columns for Event, Value, Format, and Last Received.

Event	Value	Format	Last Received
IoTSensor	{"temp":100,"Humid":80}	json	a few seconds ago
IoTSensor	{"temp":97,"Humid":60}	json	a few seconds ago
IoTSensor	{"temp":91,"Humid":60}	json	a few seconds ago
IoTSensor	{"temp":94,"Humid":77}	json	a few seconds ago
